MAXIMIZE YOUR ROI WITH WORM POWER
Healthy soils and biomes are key to profitable harvests

OVERVIEW

- With increased costs of fertilizer programs and concerns about soil health, sustainable options are needed for improving production systems.
- Worm Power has harnessed the power of the earthworms, and our vermocomposting process optimizes the conversion of feedstock into a valuable liquid extract delivering consistent quality and results.
- Worm Power Liquid Extract increases the uptake of macro and micro nutrients from both conventional and organic sources driving increased yields.
