

WORM POWER

The engine of nature.

Made by Worms, Loved by Plants

The engine of nature unleashed.

Worm Power Liquid Extract is a shelf stable, CDFA Organic certified fertilizer amendment made from OMRI Listed worm castings. Used in soil, soil-less media and hydroponics, Worm Power Liquid Extract is proven to enhance root mass, expand root-zone development and increase nutrient uptake resulting in increased yield and enhanced plant quality.

Beneficial Impacts of Worm Power Liquid Extract.

Plant Nutrition:

- Enhanced availability of plant nutrients
- Makes nutrient delivery more efficient over an extended period
- Increases root development and establishment
- Increases bio-availability and uptake of nutrients

Enhanced Efficiency of Water:

- Better biome, better media, better roots
- Improves drought tolerance
- Watershed safe

Inoculation:

- Delivers robust and diverse microbial population
- Promotes fertility and healthy biome

University Tested and Proven*:

- 15% increase in dried usable biomass
- 13% increase in THC potency
- 30% increase in THC weight

Field Tested and Proven**:

- 7% to 37% increase in dry bud weight
- 50% increase in terpene content

General Recommended Application Rates

BY PLANT IN SOIL OR SOIL-LESS MEDIA:

- Apply 1-5 mL of WPLE to the plant root zone every 7 days.

FOR HYDROPONICS:

- Mix 1 oz into 1 gallon of nutrient solution and apply every 7 days.

All growing systems are unique. Worm Power representatives are available to customize your application rate to generate the best results for your specific grow environment.

Worm Power Liquid Extract

- 100% sourced from worm castings – zero additives.
- Shelf stable up to 2 years
- All source products are OMRI certified for organic use.
- Worm Power Liquid Extract is manufactured in a highly controlled environment ensuring consistent product.
- Easy to apply. Water soluble. Can be applied in drip irrigation, spray nozzles and in hydroponic tanks.

Available in easy to use 2/2.5 gallon containers, 55 gallon drums and 275 gallon totes all with a 2-year shelf life.

We employ a four-stage process, leveraging the natural pathways of organic matter conversion.
